From the Hague Courant, dated June 23.

Genoa, June 12.

L E T T E R S from Genoa of the 5th say, that the Cardinal del Giudice was arrived there from Turin, where he had conferred with the Marquis de Mellaredo, and another of the King of Sicily's Ministers, upon the means of terminating the Differences between that Court and the Court of Rome; and is going forward for Rome. The Duke of Savoy came the third Instant to Chambery, accompanied only by two of his Guards. The Prince of Piedmont is also arrived there, and as soon as the Queen comes, the Court will take a Turn to Anney and Thonon.

H a m b u r g, June 18. The Sieur Botlicher the Swedish Resident here, assures that General Weyde has caused nine Swedish Officers to be arrested at Gadebusch, who, contrary to their Parole of Honour, were going for Sweden; by reason that he had been inform'd that the Northern Allies were jealous upon his receiving and entertaining the Swedish Officers that apply to him. Altho' the Russians have by their Talk, given Occasion to believe, that they would form three Camps in Mecklemburg, 'tis nevertheless thought, that they will assemble all their Troops at Gadebusch, except some that are to remain at Rostock, to guard the Gallies that are there. The Camp they have at present at Gadebusch is daily reinforced by the Arrival of Troops, and they provide themselves with abundance of Palisadoes and Chevaux de Frize, as if they expected to be attack'd. The Duke of Mecklemburg continues to change all his Money into Gold Ducats, whereof he has already 300000 in his Coffers. The Russians have so tag'd, and ravag'd upon the Lands of M. Fabricius, in such a Manner, that nothing is left upon them. The Courier whom the Court of Hanover sent to Vienna, return'd a Week ago, and there upon the Counsellor d'Eltz is departed for Cassel. We hear from Dantzick, that the Swedish Privateers have taken in that Road three Ships laden with Corn.

H a g u e, June 22. The Ambassador of France having received Letters from the Count de la Marck, dated May 22, has communicated an Extract of them to their High Mightinesses. They express that the King of Sweden had declar'd to the said Count, for him to report to his Court, that he had no Knowledge of what his Ministers had done; that he never had a Design to send his Troops against the King and Nation of Great-Britain, and that the meer Suspicion of it was injurious to him. That the King of England ought to send to him his Minister, and the States Baron Gortz;

that he will examine their Conduct, and will punish them if they have transgress'd the Rules of their Character, and then he will send home the English Minister Mr. Jackson. As to what concerns the Ships taken by the Swedish Privateers, and especially those in the Channel, those whereof Accounts are given with the necessary Proof, he will give Satisfaction for, according to Justice and Equity: And finally, that his Swedish Majesty will make this Declaration in all the Courts where he has Ministers. This Extract having been communicated to the British Minister Mr. Whitworth, who had a Conference upon this Occasion with the Deputies of the States-General, he has promis'd to make a Report of it to his Court. But it is very surprizing here, that the King of Sweden should seem here to disown the Conduct of his Ministers with us, as tho' it were dubious, after what has been manifest'd by the Letters that have been published, that they have acted very unaccountably.

Some Days ago the Swedish Secretary returned hither from Amsterdam, where he had drawn up an Act signed by 40 or 50 Merchants, whereby he pretends to prove, that no Merchant-Ship that has been furnished with the Passports of Baron Gortz, has been taken by the Swedish Privateers. 'Tis believed he has made this Step to give thereby a greater Credit to the Passports which he (M. Preis) says he has Orders to give to Dutch Ships, in case that Baron Gortz be releas'd.

The Landgrave of Hesse Cassel concerning himself very much in the Affairs of the North, his Minister had Yesterday another long Conference with the British Minister Mr. Whitworth, who on his part sees often the French Minister. And as that Crown takes the Peace of the North very much to Heart, and the Duke Regent testifies a Desire of maintaining a perfect good Understanding with his Britannick Majesty, we begin to conceive hopes of a Peace there; which we have not hitherto been able to entertain here. It appears even that notwithstanding the Inhibition, his Swedish Majesty permits the Dutch Resident to frequent his Court and Ministers as formerly.

'Tis assur'd, that in the Extraordinary Assembly of the Deputies of the respective Provinces, divers Articles were propos'd for the better confirming the Union, and for more effectually preventing for the time to come, those Differences that are so prejudicial to the State: And 'tis believed that after they are regulated the Extraordinary Assembly may be dissolv'd. The greatest Part of its Members are of Opinion, that not only the Fortifications of the Frontier Places ought to be repaired without Delay, but also that a certain Number of new Ships of War ought to be built, to replace those which the late War or Age have rendered unserviceable.
